

## PRESS RELEASE

Brussels, 26 October 2023

### **Hellenic Cables secures a cable supply contract with Seaway7**

Cenergy Holdings announces that Hellenic Cables, its cables segment, has signed a contract with Seaway7 for the East Anglia THREE offshore windfarm which is being developed by ScottishPower Renewables. This collaboration underscores Hellenic Cables' commitment to delivering high-quality cable solutions for renewable energy projects and reaffirms its position as a key player in the industry.

East Anglia THREE offshore windfarm is located approximately 69km NE off the Suffolk coast and will have installed power capacity of 1,400MW, producing enough green electricity to power the equivalent of more than 1 million homes. Once operational in 2026, it will be the second largest offshore windfarm in the world.

Under the contract, Hellenic Cables will be responsible for the engineering, manufacturing, testing and supply of approximately 275km of 66kV three-core Inter Array submarine cables and the supply of the associated accessories. Production will get underway in 2024.

The production of the submarine cables will take place at Hellenic Cables' vertically integrated state-of-the-art manufacturing facility in Corinth, Greece, where a skilled team of experts will utilize cutting-edge technology and adhere to the highest industry standards to deliver top-quality products.

Mr. Norris, Project Director for Seaway7 said: *"We are pleased to have awarded the contract to Hellenic cables for the East Anglia THREE project. We look forward to working with them once again, building on our long-established relationship, following the success of our most recent collaboration on another large offshore windfarm within the United Kingdom"*.

Mr. Konstantinos Savvakis, GM at Hellenic Cables, commented: *"We are excited to have been awarded the cable supply contract from Seaway7 for the East Anglia THREE project and support the expansion of renewable energy in the United Kingdom. Hellenic Cables is committed to providing reliable and sustainable cable solutions that transmit clean energy and we are proud to be part of this important project."*

### **About ScottishPower Renewables**

*ScottishPower Renewables is part of Iberdrola, a global energy leader and the number-one producer of wind power with more than 39GW of renewable projects operating across the world and a pipeline of 100GW of renewable projects. Responsible for progressing Iberdrola's renewable energy projects in the UK, ScottishPower Renewables manages the development, construction and operation of offshore windfarms throughout the world and currently has over 40 operational windfarm sites generating over 3GW of renewable energy – that's enough green electricity to power the equivalent of more than two million homes. ScottishPower Renewables continues to be one of the leading renewables developers in the UK and is investing almost £3 billion between 2023-25 across offshore and onshore wind and solar generation, increasing home grown green electricity generation in UK to support energy security. ScottishPower Renewables is currently recruiting 1,000 people to support the energy transition and create the green workforce of the future visit [www.scottishpowerrenewables.com/](http://www.scottishpowerrenewables.com/).*

### **About Seaway7**

*Seaway7 is a global leader in the delivery of offshore wind projects, committed to contributing to an efficient and sustainable energy supply for the future: [www.seaway7.com](http://www.seaway7.com).*

### **About Cenergy Holdings**

*Cenergy Holdings is a Belgian holding company listed on both Euronext Brussels and Athens Stock Exchange, investing in leading industrial companies, focusing on the growing global demand of energy transfer, renewables and data transmission. The Cenergy Holdings portfolio consists of Corinth Pipeworks and Hellenic Cables, companies positioned at the forefront of their respective high growth sectors. Hellenic Cables is one of the largest cable producers in Europe, manufacturing power and telecom cables as well as submarine cables. Corinth Pipeworks is a world leader in steel pipe manufacturing for the energy sector and major producer of steel hollow sections for the construction sector. For more information, please visit our website at [www.cenergyholdings.com](http://www.cenergyholdings.com).*
