Brussels, 8 April 2024

Hellenic Cables secures two contracts with Amprion GmbH for turnkey transmission project in Germany

Cenergy Holdings announces that Hellenic Cables, its cables segment, was awarded a contract by Amprion GmbH, one of Europe's leading transmission system operators (TSOs), for two 380 kV AC underground transmission systems in Germany for the projects Borgholzhausen (BHH, EnLAG16) and the Conneforde-Cloppenburg-Merzen (CCM, BBPIG6, Sections A and C).

Under the terms of the contract, Hellenic Cables will be responsible for the design and production of underground cables, procurement of accessories, cable laying, jointing, and terminating works, as well as site acceptance testing of the installed cable systems. Each project encompasses a 380 kV AC enameled copper cable, representing a substantial undertaking in the energy transmission sector. Manufacturing operations will take place in Greece, commencing in 2026.

These projects underscore Hellenic Cables' commitment to delivering high-quality, innovative solutions to meet the evolving needs of the energy transmission industry. With its expertise and state-of-the-art manufacturing capabilities, Hellenic Cables is well-positioned to execute this project with excellence and contribute to the advancement of energy transmission infrastructure in Germany. Moreover, Hellenic Cables plays a pivotal role in driving energy transition through its dedication to sustainable practices and cutting-edge technologies.

"The EnLAG16 project (BHH) and Project 6 of the Bundesbedarfsplan (CCM) are important links for increasing the transmission capacity from the windy north to the south. Contracts such as the one with Hellenic Cables, form the basis for securing the necessary resources and driving forward the energy transition," said Klaus Wewering, Senior Vice President Grid Projects at Amprion.

Alexis Alexiou, CEO of Cenergy Holdings, stated: *"We are honored to be selected by Amprion GmbH for these projects. This contract demonstrates the trust and confidence our clients place in our capabilities and reinforces our dedication to driving sustainable energy solutions forward."*

About Amprion GmbH

Amprion GmbH is one of four transmission system operators in Germany. Our 11,000-kilometre extra-high voltage grid transports electricity in an area from the North Sea to the Alps. Around a third of Germany's economic output is generated there. Our power lines are lifelines of society: They secure jobs and quality of life for 29 million people. We keep the network stable and safe – and prepare the way for a climate-compatible energy system by expanding our network. Around 2,300 employees in Dortmund and at more than 30 other sites help make sure the lights never go out. We also perform overarching operations for integrated grid systems in Germany and Europe.

About Cenergy Holdings

Cenergy Holdings is a Belgian holding company listed on both Euronext Brussels and Athens Stock Exchange, investing in leading industrial companies, focusing on the growing global demand of energy transfer, renewables and data transmission. The Cenergy Holdings portfolio consists of Corinth Pipeworks and Hellenic Cables, companies positioned at the forefront of their respective high growth sectors. Hellenic Cables is one of the largest cable producers in Europe, manufacturing power and telecom cables as well as submarine cables. Corinth Pipeworks is a world leader in steel pipe manufacturing for the energy sector and major producer of steel hollow sections for the construction sector.
